Under s.97 of the Local Government Act, interest must be paid on security deposits upon refund to the depositor. Given the significant amount of administrative work involved in handling these deposits, it would be inappropriate for Council to pay interest at the rate that Council earns on its surplus cash. Hence, an administrative charge is levied equivalent to the difference between the interest rate earned by Council and the rate payable by the Commonwealth Bank on its Savings Investment Accounts as at 1 July each year, subject to no interest being paid when the amount would be less than $35 together with a flat charge of $35 on interest payments.
