			- Bank Guarantee greater than \$50,000	Y	\$136.36	\$150.00
			plus 0.02% of the Value of the Bank Guarantee plus GST			
			Under s.97 of the Local Government Act, interest must be paid on security deposits upon refund to the depositor. Given the significant amount of administrative work involved in handling these deposits, it would be inappropriate for Council to pay interest at the rate that Council earns on its surplus cash. Hence, an administrative charge is levied equivalent to the difference between the interest rate earned by Council and the rate payable by the Commonwealth Bank on its Savings Investment Accounts as at 1 July each year, subject to no interest being paid when the amount would be less than \$35 together with a flat charge of \$35 on interest payments.

pp Pricing Principles

- a** The price charged for this good or service reflects the full recovery of operating costs (excluding cost of capital) of providing the particular good or service.
- b** The price charged for this good or service is a statutory charge set by regulation.
- c** The price for this good or service is set to make a minimal contribution to the cost of providing the service. The majority of costs are met from general income.
- d** The price charged for this good or service represents either the full recovery of operating costs (excluding cost of capital) or the current market rate whichever is the greater and reflects prices charged for similar goods or services provided by other Councils.
- e** The price for this good or service represents either the full recovery cost or the current market rate, whichever is the greater, except to those individuals or groups that have been identified as being disadvantaged in need of 'special consideration' or where a community service obligation exists.
- f** There is no price charged for this good or service. All costs associated with this good or service are met from general income.
- g** The price for this good or service is set to reflect the full recovery of operating costs plus an appropriate profit margin, whilst recognising current market rates.
